DATA SOURCES

This presentation primarily relies on two sources from the Census Bureau.

- <u>2010 Census of Population and Housing</u>
  - ✓ Decennial census taken as of April 1, 2010 to provide "official counts." The questionnaire was limited to ten questions providing:
    - Number of individuals by gender, age, race/ethnic
    - Household structure, relationship of persons
    - Housing unit owned or rented
  - ✓ A great deal of 2010 Census data remains to be released.

DATA SOURCES

American Community Survey: 2005-2009

- A continuous sample survey that provides annual data. Because annual "margins of error" are very large, five-years are combined to provide data for most geographic areas. Some items:
  - ✓ Family and household relationships
  - ✓ Income and benefits, poverty
  - ✓ Education, employment
  - ✓ Housing characteristics

BOONE COUNTY
POPULATION GROWTH: 2000-2010

- Boone County grew by 29.6% 2000-2010 from 41,786 to 54,165.
- The growth of 12,379 was the largest numerical increase ever in a decade, but the percentage growth of 29.6% was a bit lower than the +35.6% from 1990-2000.
- Boone was the third fastest growing county in the state behind Kendall and Will.

BOONE COUNTY TODAY
SUMMARY OF FINDINGS

- Boone is one of the state's fastest growing counties, though in-migration may have slowed recently.
- Movement of residents in and out of the county features an exchange of persons with Winnebago County.
- From 2000 to 2010, Belvidere grew the most numerically, though Timberlane and Poplar Grove exhibited the highest percentage growth.
- The "Hispanic influx" fuels much of the growth – Belvidere is now 30% Hispanic.

BOONE COUNTY TODAY
SUMMARY OF FINDINGS

- The Hispanic population is young, live in large traditional families and speak Spanish at home.
- Despite the many young families moving in, some aging of the population is evident.
- Only one-third of residents are employed within Boone County. Commute times are getting longer.
- Home ownership is strong, but housing vacancies grew in the decade.
- Incomes are fairly high, poverty low even though educational levels are not elevated.
